

A SUBSIDIARY OF TRITEN CORPORATION

When Overlay Product Systems T200X™ Accepts Your A/R Challenge, We Guarantee Superior Performance— Or Your Money Back!

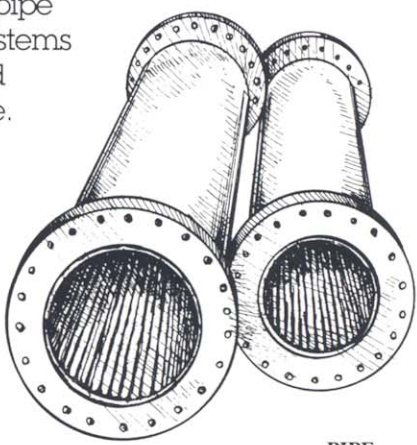

FAN BLADES AND LINER

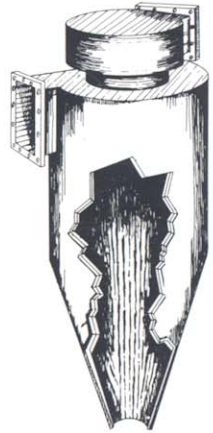

SCREW CONVEYOR

Whether your abrasion problems require plate, pipe or custom fabrication, Triten Overlay Product Systems (OPS) can increase equipment performance and decrease downtime, improving your bottom line.

Triten is the world's leading manufacturer of hardfaced plate, pipe and custom overlays, applying over 2.5 million pounds last year. Dollar for dollar, Triten guarantees our overlay cladding to provide superior performance in highly abrasive industries such as steel, glass, pulp/paper, rock and coal mining, and dredging.

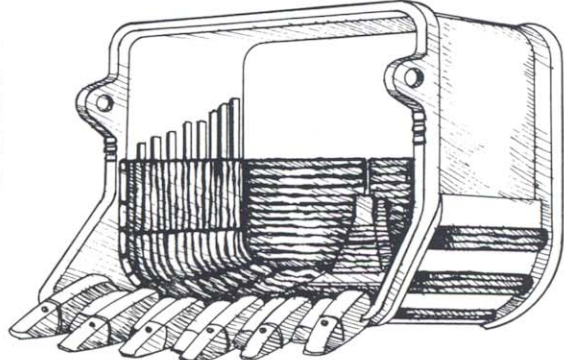

PIPE

CYCLONE

Our sales technicians will visit your facility and analyze your abrasion problems and needs. Then, Triten OPS will prepare your quote, along with a written guarantee that is customized to your equipment and your situation. When Triten OPS gives you a bid, you know exactly what you can expect from your hardfacing dollar. Now, that's a guarantee you can bank on.

SHOVEL BUCKET LINER
